

Bill and Mary Beth (Monroe) Barron

We've been going steady since Junior Year and are still going strong.

Bill graduated from Case Western Reserve and served in various financial management roles at GE for twenty-two years; including a three-year assignment in Australia. After GE, Bill became President of Diagnostek, Inc., a pharmacy benefit management company (now part of Express Scripts) and managed mergers of several public companies; retiring from full-time work in 1997. Bill led the local Sun City Center, FL CERT team for 11 years and today enjoys golf and ham radio.

Mary Beth received a nursing degree from Pace University and was employed as an RN at several locations. She was also a Regional Manager for Nutrisystem in Albuquerque. Mary Beth served as a volunteer EMT and deputy chief with the local Sun City Center EMS squad for 17 years.

We've raised two great children (a boy and a girl) and have nine grandchildren!
